

Annapurna SIL - Versions and Changes

Announcement list

If you would like stay informed of updates to Annapurna SIL and other SIL fonts, please subscribe to the [SIL Font News Announcement List](#). For more information see [About](#).

Our font announcements are also available through Twitter [@silfonts](#).

Current versions

The latest version of the fonts is always available from the [Annapurna SIL download page](#) as a .zip archive for all major platforms.

This font package is also available in the [SIL software repository for Ubuntu](#). Users can subscribe to this software repository and get current versions and updates automatically.

Annapurna SIL is also available through the [TypeTuner Web](#) service, which allows you to choose among the smart font features and download a font with those features preset. This enables them to work in many applications that do not make use of Graphite or OpenType Stylistic Sets. *TypeTuner Web currently uses version 5 fonts, however we will be working to update it to use the newest version 6 fonts soon.*

Previous versions

Previous versions remain available from our [Annapurna SIL download page](#).

Change history

A detailed list of changes for each version of the fonts is on the [Version history page](#).

This guide is from the [Annapurna SIL project](#) version 2.000 and is copyright © 1997-2023 SIL International.
